- Mix gloss with rougher textures
- Plenty of greenery
- Black, reds, yellows and cream (not white)
- Low-slung furniture
- Bamboo, lacquer, brass and rice paper

*Healthy-lifestyle-lovers appreciate it*

## FORE-WARD THINKER

- Extend the outside in with plant transitions
- Pale hues found in nature, with one to two color pops only
- Calm, unflashy, with one main focal point (doors)
- Wood, wools and weaves (...and more green)
- Reclaimed/recycled objects when possible

*Outdoorsy, sporty folks have a feel for it*

## EASY-BREEZY

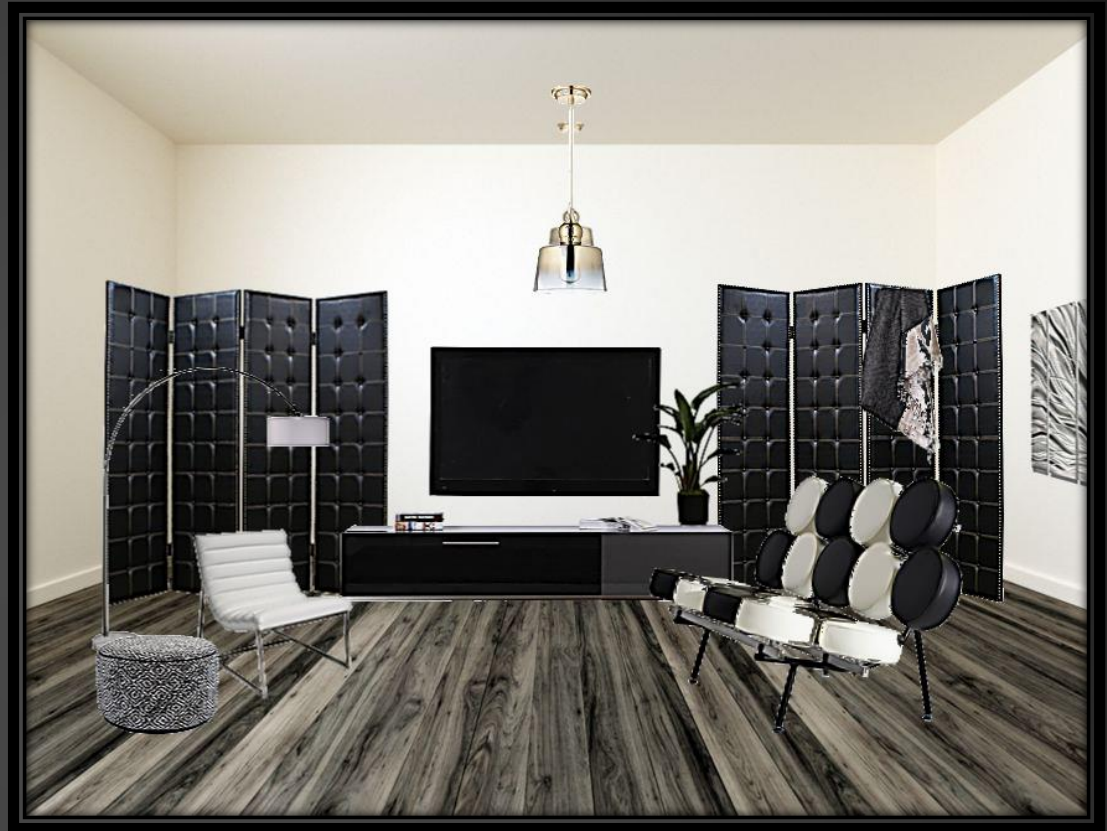

- Softy seashore vs. heavy nautical vibe
- Lovingly-worn elegant, shabby-chic furniture
- Pale and light-colored wood and baskets
- Transparent and glass accents
- Pop of unusual color against sea hues

*Carefree, independent Boomers and young-at-hearts dig it*

# URBAN LEGEND

- Bold minimalist style is timeless
- Statement master modern furniture adds touch of luxe
- Textures such as leather, wood, steel and composites keep it from being sterile
- Brass overhead lights add a bit of glamour and “softness”

*Fearless adventurers gravitate toward this*

# VELVET HACIENDA

- Bold and contrasting primary colors
- Luxurious fabrics such as velvet, linen, silk
- “More is more” (maximalist) depth
- Dark, robust wood furniture
- Antique porcelain, pots and other ornate Old World treasures

*Style-conscious urbanites take a shine to it*

# BOLD BOTANICAL

- Eye-popper pattern to build room around, like curtains
- Large and medium flowers, not small
- Luxurious fabrics and textures such as silk, wool, linens
- Light, slightly distressed or Swedish-style furniture
- Mix up styles within uniform color scheme

*Quiet and thoughtful types, and bookworms, fit right in*
